

PRIYADARSHINI

B.TECH.STUDENT

EDUCATION

2nd Semester
Reva University,Bengaluru

OBJECTIVE

- To showcase my academic projects in Computer Science and IT.
- To demonstrate my programming and problem-solving abilities.
- To build a professional profile for future opportunities.

FUNCTIONAL SKILLS

- Problem-solving and logical thinking
- Programming and debugging skills
- Teamwork and communication
- Time management and adaptability

ACTIVITIES-MINI_PROJECT

- Developed a mini project titled **"2D Graphics Editor"** using **C programming language**.
- Implemented basic drawing functions like line, circle, and rectangle using graphics library.
- Designed a simple menu-driven interface for user interaction.
- Practiced problem-solving and applied C programming concepts in a real project.
- Debugged and tested the program to ensure correct output and functionality.
